### AFTER

## **360-degree assessments: Meaningful feedback without the paperwork**

**Groom your workforce. Boost productivity. Increase revenue.**

Halogen e360 is the complete web-based 360-degree feedback software solution that enables organizations to build employee evaluations and conduct multi-rater assessments with remarkable ease and simplicity.

Launched in 2002, Halogen e360 is already deployed to nearly 1000 customer sites worldwide. Halogen e360 is enabling companies to transform the employee assessment process from a paper-based labour-intensive experience to one that centralizes information and encourages employees to achieve the highest standard of performance.

Implemented properly, 360 assessments play a vital role in the overall success of the organization. 360 assessments help companies manage workforce, groom and retain talent, increase employee satisfaction, increase productivity - all of which ultimately helps increase revenue and market share.

Halogen e360 is the only 360-feedback solution that can capture the organization's own unique needs and support all stages of the assessment process. No other assessment software fits into the culture of an organization and matches the workflow as seamlessly as Halogen e360. None of the competing products make collective employee participation in the assessment process as smooth and effortless as Halogen e360.
